He stated that there are five major penal institutions in the State, and 36 road camps, with inmates totaling approximately 8,000. GCI has 500 colored male inmates and is a medium security institution with only the guards on the gates being armed, yet there have only been two escapes during the past calendar year.

Mr. Curlee said that the present policy in dealing with prisoners is to rehabilitate instead of punish. The major operation at GCI is cattle raising with some 3,500 to 4,000 head of stock in the herd. There is also a herd of 155 dairy cows, and an efficiently operated canning plant.

The Farm Front

A headline in one of our regional livestock publications caught my eye recently. The story was to the effect that farm incomes have risen much faster in recent years than those of non-farm people.

An Illinois economist was quoted as stating that U. S. Department of Agriculture figures show average incomes of people on farms rose 43 per cent in the 1955-61 period, where as for non-farm people the rise was only 17 per cent.

Just what figures the Illinois economist used to arrive at that surprising conclusion the report didn't state. But I know a lot of farmers who would take violent exception to that comparison.

For one thing, since 1955, there has been a considerable reduction in the farm population and the number of farms, but total net income of U. S. farmers has increased moderately. In 1955, total net income of farm operators from farming was a little more than 11 1/2 Billion dollars and in 1959 it was just a little over 12 Billion. However, in 1955 there were 5,087,000 farms but in 1959 this number had dropped to 3,704,000.

It's obvious that if increased total income is divided among fewer people the individual average income will be larger. But from statistics I've been able to find there's nothing to indicate any such rate of gain in farm incomes over non-farm incomes as the figures quoted by the Illinois economist.

I do find, however, that average incomes of those working on farms show a 16.2 per cent gain from 1955 to 1959, whereas the gain for non-agricultural workers was only 11.3 per cent. But the average income for farmers still was far less than that for non-farm employment—nearly 84 per cent less, or only \$2,337 compared with \$8,468.

I note one report on the agricultural outlook that forecasts a sharp break in hog prices this winter. Reason given is a jump of 7 per cent in the number of pigs saved in the 1962 fall pig crop which was up 5 per cent over the previous year.

Cattle prices, also, are expected to slide this spring because of an estimated 8 to 10 per cent increase in slaughter of fed kinds then. Slaughter weights at that time are expected to run heavier.

One western roundup of cattle information reports that cattle on feed on January 1 "went" easily exceed 8 1/2 million head for the 26 major feeding states, about 10 per cent more than a year ago."

Missouri wants to start a sugar industry. Eleven counties are planning for 1,000 acres to be planted

to sugar beets. According to the Missouri Department of Agriculture, test planting results have been good enough to obtain a commitment from a processing concern to handle 1963 production.

The Missouri area has no allotment yet, but officials hope to get one. In the meantime, plantings will be listed as "experimental."

In the field of chemicals, I note that one firm is marketing equipment for greenhouse operators to give their plants a "boost" of carbon dioxide. "Atmospheric fertilization," they call it, and it works for plants and vegetables like bottled oxygen helps humans. Also, I was told about a new method of protection against damage to perishables if the cooling system breaks down in a refrigerated truck. Should the temperature start to rise, a thermostatic control releases liquid nitrogen which is sprayed over the truck contents, cooling them down quickly.

The Economic Research Service of the U. S. Department of Agriculture suggests that incorporating the family farm may be a wise move.

When a farmer incorporates his farm operation, he can limit debt liability and still manage his own business, the Service points out. Articles of incorporation must be drawn up and filed with the proper legal authorities. Records must be kept and audited each year.

There may be tax advantages, also, but the chief value of incorporation is in making it possible for farm families to share equally in an estate without dividing or selling the farm business. By giving his family shares of stock, the farmer can pass on the operation intact to a son who wants to stay on the land, while giving to other heirs a fair share of the income from the farm.

So, if there develops a big growth in the number of farm corporations, don't jump to the conclusion that farming is passing into the hands of "big business" and absentee ownership.

4-H Clubbers Hold February 7 Meeting

Forest Hill Has Fine Net Record

The last stand for the other 10 clubs to keep unbeaten Forest Hill from its first undisputed basketball championship in the Suncoast Conference starts this week with the teams scheduled for 16 games this week and concluding the regular season next week.

Heading off the powerful Falcons seems rather unlikely, but their cracking certain conference records appears certain to occur. The first mark fell Saturday as the team season points total set at 1,267 by Riviera Beach a year ago was surpassed. Forest Hill defeated guest Ft. Pierce 57-28 to boost its total points in loop play this winter to 1,271. The Falcons' per game average now is 79.44 which is 25 ahead of the team average record also set by Riviera last year.

Frank Saier, Forest Hill's cinch all-conference center and the league's top scorer, is threatening two marks set a year ago by Clewiston's Ron Robison. For the campaign, Robison hit 166 field goals and totaled 442 points. With four Suncoast games yet to play, Saier has 137 goals and 355 points. So he's 28 goals and 87 points shy of the Robison records, but he's no threat to the record season average set by the Clewiston star.

The Falcons will prime for their final tests at winless Clewiston

Tuesday on a five-game league card. That night runnerup Palm Beach invades tough Seacrest in a bid to remain 2 1/2 games back of the leader. Vero goes to Belle Glade, Stuart is at Pahokee and Ft. Pierce visits Lake Worth.

Friday Palm Beach faces an equally imposing task when it calls on Lake Worth which is perhaps the league's most improved team after a weak start knocked it from the flag contention. Also that evening Stuart is in Ft. Pierce, Belle Glade is at Pahokee, Seacrest calls on Clewiston and Vero invades Riviera.

A six-game Saturday night card is featured by Forest Hill invading Seacrest. Also Pahokee goes to Vero, Riviera trips to Stuart, Clewiston is guest of Belle Glade, Ft. Pierce travels to Palm Beach and Lake Worth hosts non-league Cardinal Newman.

Easy triumphs 99-57 over Pahokee and 91-54 at Stuart kept Forest Hill's record unswayed in the past week. Palm Beach slipped into second with romps 74-56 over Stuart and 79-44 over Belle Glade, as Riviera dipped to third after a surprise 79-58 reverse by Lake Worth as the Trojans netted 31 free throws, only three off the league record. Lake Worth and Seacrest each won twice to remain locked for fourth place.

Saier continued to hold a comfortable lead as top scorer with a 22.19 average through the Falcons' 16 starts. Still runnerup is Belle Glade's Tom Close at 18.67 followed by Saier's teammate, Har-

ry Winkler, at 18.53. Pahokee's Alberto Morrell has pulled into fourth at 15.67. Following him are Bob Snyder of Ft. Pierce at 15.13, Brian Murphy of Palm Beach at 14.77, Rick Lee of Riviera at 14.69, Martin Amestoy of Seacrest at 14.50, Dave Steinhauer of Lake Worth at 14.31, Charles Hall of Stuart at 14.20, Craig Gruber of Riviera at 13.80, Ricky Braman of Vero Beach at 13.47, Bob Duncan of Palm Beach at 12.71, Lanny Fox of Lake Worth at 12.53, Bob Shoff of Ft. Pierce at 12.31, Bob Goodson of Pahokee at 12.07 and Mike Mazzina of Clewiston also at 12.07.

With 10 games next week to finish the regular season, the standings today are:

	W	L	Pct.
Forest Hill	16	0	1.000
Palm Beach	13	2	.867
Riviera Beach	13	3	.813
Lake Worth	10	6	.625
Seacrest	10	6	.625
Pahokee	6	9	.400
Ft. Pierce	6	10	.375
Stuart	5	10	.333
Vero Beach	5	10	.333

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

Survey Is Coming Circuit Judges

The Palm Beach County Commission this week appropriated \$300 to help finance a population study to determine if Palm Beach or Broward County is entitled to an additional circuit court judge.

The study was called for by Gov. Farris Bryant whose authority was based on recent legislative statutes setting up machinery for interim population studies.

Charles Fulton, West Palm Beach attorney, represents Palm Beach County on the state committee. He appeared before the commission to ask for funds which will be shared on a 50-50 basis with Broward County. The two counties make up the 15th Judicial Circuit.

The survey will be conducted by the economic and research division of the University of Florida.

Stockade Food Is Good, Says Judge

A second chapter in the food situation at Palm Beach County's stockade for working prisoners, was given to the County Commission several weeks ago into conditions at the stockade.

Judge McIntosh said he and his secretary made a surprise visit to the stockade and found food was substantial; sufficient in quantity; good in quality—a great improvement over sub standard food found on earlier visits.

He said improvement of the food was a good morale builder for the prisoners and he made an appeal from means to further aid prisoner morale.

Judge McIntosh said the stockade had been given two second hand TV sets for use of the prisoners but that now the TV sets needed replacement. He said he didn't believe "tax" payers money should be spent for the TV sets but he said he hoped some civic club or benevolent person would see fit to donate new TV equipment.

Judge McIntosh was thanked by the commission for initiating the investigation, which the commission agreed, helped overcome a condition that might have become a serious problem.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones
you own now are better than ever*

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

"Soul" will be the subject of the Lesson-Sermon this Sunday. Bible readings will include this passage from Psalms (42:11): "Why art thou cast down, O my soul? and why art thou disquieted within me? hope thou in God: for I shall yet praise him, who is the health of my countenance, and my God."

Other passages will emphasize the Christian Science teaching that man's real soul is not something in the material body, but the one infinite Soul, or God. Also included will be this sentence from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 60): "Soul has infinite resources with which to bless mankind, and happiness would be more readily attained and would be more secure in our keeping, if sought in Soul."

New Study Course—

(Continued From Page 1)
has sent 40 books to the school in connection with the Americanism vs Communism course, but it will be presented for the most part, in lecture form. Since Florida students are so steeped in American history, parents need not fear this short course on Communist ideology.

The first half of the program at the meeting was presented by the Junior Red Cross, composed of students from the third, fourth, fifth and sixth grades under the direction of Mrs. Hugo Boe.

Mrs. Evelyn Lair announced the time for the new TV program "Operation Alphabet" for adults who can neither read nor write. The course will be taught twice daily, every Monday, Wednesday and Friday for 33 weeks starting March 11. Television stations carrying the lessons will be WLEW, Channel 10, from 6:10 to 6:40 a. m.; and WTHS, Channel 2, from 6 to 6:30 p. m.

The room count was won by Mrs. Scott's fourth grade, and Mr. Whiteside's class in High School. Hostesses during the social hour were Mrs. Mike Sanders and Mrs. Joe E. Thompson.

Fashion Show By—

(Continued From Page 1)
tables were planned by Mrs. Glenn Powell and Mrs. C. B. Stringari and also featured the Valentine colors. Two rose trees were used on the side tables and a heart shaped arrangement centered the president's table.

Gifts were presented to Mrs. R. C. Lane and to each of the judges. Mrs. B. R. Mosley, fine arts chairman, was in charge of program arrangements. Mrs. C. M. Todd, president, presided over the short business session.

It was announced that the Mad Hatters' luncheon will be held Feb. 27, under the direction of Mrs. M. P. Stanley.

Visitors were Mrs. F. H. Poteete, Mrs. Basil Todd, Mrs. Max Jones, Mrs. Guthrie Colvard, Mrs. Jerry Rutherford, Mrs. R. A. Powell, Mrs. Dicey Schearburn, Mrs. Mary Carlson, Mrs. Jake Williams, Mrs. Frank Tills, Mrs. Ruby Guthrie and Mrs. Milton Douglas.

Turnpike Speed Set At 70 Miles

TAMPA — The opportunity to legally drive 70 miles per hour will be available to all motorists using the Florida Turnpike on and after February 20th.

The Turnpike Authority's decision to change the existing 65 mph limit to 70, was based on the numerous safety features engineered into the four laned, limited access facility.

The 40 mph minimum speed limit was retained.

Authority Chairman John M. Hammer, after a 70 mph personal test of the 109-mile long facility, foresaw no likelihood of danger to patrons using the Turnpike. He said any fractional increase in the Pike's excellent safety record would be "cause for returning to the 65-mph limit in the interests of motoring safety."

Elections Worry Those In Charge

A special election to select Palm Beach County two additional state representatives, plus overlapping municipal elections, are giving the Palm Beach County Commission some problems in its voting machine department.

The representative elections for nominations have been called for Feb. 26 and a possible run-off on March 12. General election in these races is set for March 26.

The general election date is the same set by many municipalities for its elections. It is customary for municipalities to borrow county voting machines for elections.

Voting Machine Custodian Frank Sakser said it appeared that towns would have to make other arrangements for municipal elections since it would be impractical to make voting machines available. In one instance—in West Palm Beach—where the same set of registrations are used for both City and county, there is a possibility that both ballots could be placed on the same machines. In other towns where separate lists are used, it would require other arrangements not deemed feasible.

The commission told Sakser to

work out whatever arrangements he could that would take care of the state election and still lend what measure of cooperation possible to aid the municipalities.

Silver Springs Has New Attraction

SILVER SPRINGS — Florida has been "invaded" by the Old West. A new tourist attraction, Six Gun Territory, has been established on 228 wooded acres that can only be reached via a "wilderness" ride on an old fashioned railroad.

Rootin' tootin' action in the Florida sunshine is the order of the day in Six Gun Territory. The Old West setting features shootings, bank holdups and gun fights almost hourly. Visitors can also shop at the old General Store, visit the Old Frontier Hotel or drink Red Eye at the Palace Saloon.

Man behind Florida's newest attraction is R. B. Coburn, president of Mountain Development Corp., the parent company of "Ghost Town" in Maggie Valley near Asheville, N. C.

Built at a cost approaching \$2 million, Six Gun Territory is a spectacular attraction equally appealing to children.

HOME FROM INDIANA

Mrs. Pearl Agner has returned from a six weeks visit with her son and daughter-in-law, Mr. and Mrs. Merle Agner and family in Indianapolis, Indiana, and her son and daughter-in-law, Mr. and Mrs. J. D. Agner, in Chicago, Ill. She was accompanied home by Mr. and Mrs. J. D. Agner, who are her house guests, this week. While Mrs. Agner was in Chicago, there was lots of ice and snow and the temperature went down to 26 below zero.

Frank Thompson returned to his home in Pahokee, Tuesday, where he is convalescing after spending several days in the Lakeland hospital.

Mrs. G. Bedford Brown of Georgetown, Kentucky, arrived last week and is the house guest of her brother-in-law and sister, Col. and Mrs. W. S. Evans at Port Mayaca.

Mrs. Sadie Barwick of Miami will be the guests of relatives in Pahokee, this weekend.

Mrs. Mae Laflin had as her weekend guests, her brother and sister-in-law, Mr. and Mrs. Charles Adamson of Cocoa.

Cancer Talk Will Be Heard Feb. 21st.

Colonel R. P. Mason, M. D., (ret.) Vice President for Research of the American Cancer Society, New York, will be a featured luncheon speaker at the Florida District Cancer Crusade Conference to be held in Ft. Lauderdale, at the Reef Restaurant, Thursday, February 21st.

The conference will be attended by key Society volunteers and friends from a four-county, Southeast Florida area. These will include representatives from Broward, Palm Beach, Dade and Monroe Counties. The theme of the meeting will be "The Year of the Volunteer." Special emphasis will be made on the participation of volunteers in the \$1,100,000 Educational and Fund-Raising Crusade of the Florida Division of the American Cancer Society which will be conducted in April.

Visitors at the home of Attorney and Mrs. Ralph O. Johnson the first part of the week, were his mother, Mrs. J. O. Johnson, and Mr. and Mrs. L. H. Terry, all of Lakeland.
